Omar Amine

Frontend Engineer · React & Next.js

Casablanca, Morocco · Open to remote
amineomar019@gmail.com
Portfolio ↗ · GitHub ↗ · LinkedIn ↗

Frontend engineer with 3+ years of experience building modern web applications with React, Next.js, TypeScript and Tailwind CSS. I turn Figma designs into responsive, accessible, performant interfaces, and I'm comfortable across the stack with Node.js, REST APIs and SQL/NoSQL databases.

EXPERIENCE

Frontend Engineer · UMMATY (Freelance) — Dec 2025 – Present · Remote

- Leading the frontend redevelopment of UMMATY's official charity website, rebuilding the UI with React and Tailwind CSS for a cleaner, modern design.
- Improving layout structure, responsiveness and accessibility, and building reusable components for faster future updates.

Frontend Developer & UI/UX Designer · HeyTajine (Freelance) — Dec 2024 – Feb 2025 · Remote

- Designed the landing page in Figma for HeyTajine, a Slack bot for team recognition, then built it end to end.
- Developed a responsive landing page and an intuitive dashboard with HTML, Tailwind CSS and JavaScript, deployed on Vercel.

Software Developer · Metaverse — Apr 2023 – Feb 2024 · Casablanca (Hybrid)

Software Developer Intern → promoted to full-time — Dec 2022 – Apr 2023

- **FCN4U** — Built an interactive thumbnail creator with React, Next.js and Fabric.js that lets users customize featured images for their posts; used server-side rendering to improve load times and SEO.
- **BimoHealth** — Developed the frontend of an online mental health consultation platform: interactive assessments, doctor search, appointment booking and video consultations built with the Amazon Chime SDK.
- Contributed to backend authentication and AWS S3 storage for secure image uploads.

Full Stack Engineer · Student's Mind — Dec 2020 – Feb 2021 · Casablanca

- Built a school management system for student registration, grade entry and staff attendance.

PROJECTS

AI Content Studio — Live ↗

AI writing platform powered by Google Gemini, with Supabase auth, React Query and live markdown rendering.

Next.js · TypeScript · Supabase · Gemini AI

FlowBoard — Live ↗

Real-time collaborative kanban with drag-and-drop, priorities, due dates and board, list, calendar and timeline views.

React · Socket.io · Express · PostgreSQL
